

TONOPAH TEAM WINS HIGH HONORS AT FRISCO

NEVADA CON. TAKES THE FIRST PLACE

Bar Local From the International Honors Because District Not Mine Squad

A telegram from John G. Kirchen to W. H. Blackburn this afternoon evidences that the mine rescue and first aid team sent to the Panama-Pacific exposition contest is giving a splendid account of itself at the San Francisco tournament. If it were not for the fact that the team represents a district instead of a single mining company it would be able to compete for and would have an excellent chance to secure the international honors.

The telegram states that in competition with the team from the mine at Treadwell, Alaska, and the teams from the anthracite mines of Pennsylvania it won out and received the cup. In the elimination contests it was second and another mining company, the Nevada Consolidated, of Ely, took first place. Twenty-three teams participated in the elimination contest. The Goldfield Consolidated team also made a very high score.

"SAFETY FIRST" IN THE MONARCH PITTSBURG

EIGHT THOUSAND FEET OF WORK DONE AND NOT A MAN HURT IN THE MINE

At the Monarch-Pittsburg, a new raise on a stringer of very good ore which was encountered two years ago is being put up on the 1000 level 100 feet due south of the shaft and indications are believed to be very favorable toward encountering the downward extension of the rich shoot of ruby silver opened on the 850 level. Unusual progress is being made in that two rounds of holes are being blasted in each eight hour shift, averaging seven feet per shift. A new No. 16V Waugh stoper with spraying attachment is being used in this work. Close to 8000 feet of development has been performed at this property, which is far in excess of the footage obtained in any other property similarly equipped in the district. During this period of development which has extended over a period of three years not one underground employee has ever been injured to the extent of losing so much as one shift's work, which speaks volumes for the energy displayed and principles of "safety first."

PREPARING FOR WINTER

There is no occasion for any members of the building trades to come to Tonopah in search of work, for there are plenty of artisans here to do all that is required of them, but at that there is considerable activity this fall in the trades. There are few new buildings under construction, but a walk about the town will evidence the building of a number of additions to homes and business places and a general rehabilitation is in progress.

CARRARA GOLD MINING COMPANY SHIPS ORE

The Carrara Gold Mining company has just shipped another carload of ore to the Western Ore Purchasing company at Goldfield that will run around \$50 to the ton, says the Obelisk. In taking out this ore another \$5000 worth of low-grade ore was put on the dump. The mill to treat Carrara gold ore has not yet been ordered, but the officers expect to have all arrangements completed in the very near future.

PRODUCTION OF COAL IN ENGLAND DECLINES

(By Associated Press.)

LONDON, Sept. 24.—During the half year ending June 30 the production of coal in the United Kingdom declined by 12,448,000 tons, or 8.9 per cent, over the corresponding period for last year, according to an official statement by the board of trade. The Northumberland district, where the decline reached 25.2 per cent, has been the district to suffer the worst. In the first half of 1913 the total output was 145,923,000, as against 127,826,000 for the six months just ended. The corresponding period for 1914 gives 140,274,000 tons. As regards bunker coal for the admiralty and the merchant marine, this year shows an increase of 347,000 tons over a year ago.

BUCKSKIN NATIONAL IS TO ERECT MILL

Former State Senator W. J. Bell returned last evening from Buckskin Mountain, says the Winnemucca Silver State. He reports two leases at work on the property of the Buckskin National, with good results. In addition to the ore taken out by the lease, the company has about 5000 tons of ore on the dumps of a milling character.

It is the intention of the officers of the Buckskin National to erect a mill on the property as soon as sufficient depth is attained to determine the permanent character of the ore. At present the deepest working on the mine is 260 feet.

"DRY WASH" WILSON returned this morning from a visit to San Francisco and San Diego.

50,000 CHRISTIANS MURDERED BY TURKS

Most Colossal Martyrdom in the World's History Described By Eye Witnesses

(By Associated Press.)

NEW YORK, Sept. 24.—A description of the massacre of Armenians in Turkey has been received by the Paris representative of the Armenian church in which it says: "Christian martyrdom never assumed such colossal proportions. Four hundred and fifty thousand Armenians have been killed and 600,000 exiled from a population of 1,500,000, making the massacres of Abdul Hamid seem insignificant in comparison. The atrocities are now approaching annihilation of the whole people. Residents of the province of Cilicia have been deported en masse to the deserts south of Aleppo, where after months of travel on foot, they arrive only to find no house, no work, nothing but graves. The only alternative is conversion to Mohammedanism. The villages of Van and Bitlis have been pillaged and the inhabitants put to the sword."

KIAO-CHOW WILL NOT BE AN OPEN PORT

HARBOR WILL BE KEPT CLOSED BY CHINA TO THE FOREIGN TRADE

(By Associated Press.)

PEKING, Sept. 24.—It is announced by the state department that Kiaochow will not be among the ports in Shantung province which China will open to foreign trade. Under the treaty agreement with Japan that China will confer with the Japanese minister and arrange for the opening of ports, the state department officials and Mr. Hiohi have been in conference almost daily for several weeks as to the ports which will be thrown open to the world in Shantung and Inner Mongolia. The list is awaited with much interest by business men familiar with trade in China.

Jehol, in Inner Mongolia, the ancient capital of China, is another well known city which the state department has announced will not be opened. It is now of slight commercial importance as it is off the railway, five days by caravan northwest of Peking. The Chinese officials are evidently working by process of elimination and their announcements up to date disclose the names of cities

BUSINESS FAILURES SHOWING A DECREASE

(By Associated Press.)

LONDON, Sept. 24.—The report of the inspector general in bankruptcy for the year ended December 31, 1914, states that the number of failures in England and Wales for the year shows a large falling off, being the smallest since the bankruptcy act of 1883 came into operation, the decrease being attributable to the war. During the first seven months of the year receivership orders were made in 2167 cases and in the last five months only 800.

While the number of failures has decreased the liabilities and assets have substantially increased and the total estimated loss to creditors is nearly two millions sterling in excess of the loss estimated in the preceding year.

which will not be opened. No intimidation has been given as to the ports which will be opened.

The state department has issued lists showing the following cities in Shantung will remain closed: Kuoni, Tsingchow, Lin-ching, Tschow, Tang-chio-kou, Yenchow, Yichow, Pu-shan, Kiao-chow. Cities in Inner Mongolia which will not be thrown open are: Jehol, Li-chuan, Shiao-ku-lun, Kailu, Lin-jai, Tsalai, Ching-peng, Ping-chuan, Wu-tan-cheng.
